

blitz theatre group

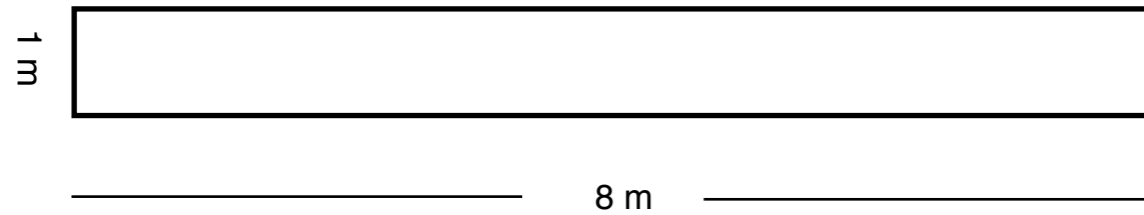

GALAXY

Technical Rider

A production of **blitz** theatre group
December 2011
Athens

Scenography

1. Concerning the scenography, we need a catwalk made by risers one close to another. The dimensions of this catwalk are 8 meters long and 1 meter wide.

Light

A line of fluorescent lights, connected to one another. The length of this line is 9 meters. It is placed right in front of the catwalk.

Depending on the space, additional lights may be needed (max. 8 1000KW profiles)

Sound

There is no music during the performance.
